CUT WEEDS IN YARDS AND VACANT LOTS

Health Officer Asks Co- Operation of Citizens in Work of Cleaning City

DUTY OF ALL TO HELP

Laxity About Weeds Causes Harbor
For Mosquitoes and Vermin and
Frequently Results Seriously.

Dr. Louis E. Foulks, city health officer has the following to say regarding conditions here:

Why create a safe harbor for mosquitoes and vermin of various kinds by permitting weeds and high grass to grow up in your yards?

Such a condition also creates a cover for waste and filth and is an inducement to throw trash there because it cannot be seen, and besides a sense of personal pride ought to impel a man to keep his immediate surroundings neat and clean, not to mention the duty he owes to his neighbor or the fact that he is violating the law and is subject to a fine.

Alexandria is now on the road to improvement and prosperity, so it is the duty of each citizen to give it a little push to help it on the way. If an individual looks prosperous and successful, the public takes it for granted he is. So it is with a city. Alexandria is one of the oldest and most historic cities in the country and its location could not be more ideal. Its fine and extensive water front, good railroad service, its close proximity to the Nation's Capital, with all its educational and other advantages within a half hour's ride are features that force themselves upon the intelligent observer.

But all of this counts for little, if we as citizens are lax and indifferent to our individual duties. No city department can efficiently carry on its work for the public good unless it has the moral support and hearty co-operation of the people. We are apt to judge a family by the general condition of its house and surrounding. If some of the members are careless, the family is blamed as a whole. So it is with a city, for it is simply a family on a larger scale. Our actions and methods of life tend either to raise or lower the general standard of this big family. The Health Department is doing and will continue to do its very best to make Alexandria as clean, healthy and attractive a place to live in as can be found in this part of the country. In this good work we have the active aid and hearty co-operation of the city engineer and police department, all working together for the improvement of our city. But much of our work will be in vain unless we have the collective as well as individual support of our citizens. Rome was not built in a day, neither can we accomplish all we have in view and desire, in a week or month. Don't criticize and complain, for we are working for your good and need your constructive help. If you have a suggestion or a just complaint, it will receive prompt and careful consideration by the Department of Health. Remember, we are working for the public good.

PEACE TO WAIT FOR TREATY

President Writes Fall He Cannot Act
Until Pact is Ratified

Washington, Aug. 22.—The compromise proposal to have the Senate adopt peace treaty reservations, but keep them separate from the ratification itself was put aside indefinitely yesterday, after Democratic leaders had declined to assume responsibility for it and Republicans of all shades of opinion had given notice they could not accept it.

Among the Republicans the development was interpreted as meaning that action never would be sought on the proposal in its present form, and Democratic leaders generally said they had no plans for bringing it to a vote.

Meantime a White House announcement and an executive session of the Foreign Relations Committee brought to the surface again two other issues of the treaty fight.

President Wilson, replying to a suggestion that he might put the country on a peace basis by declaring the war at end, announced that he not only considered himself powerless to make such a step but considered a peace declaration either by himself or Congress prior to ratification of the treaty would "put a stain upon our national honor" by evading responsibility in the world peace settlement.

The Foreign Relations Committee got into another argument over prompt committee action on the treaty which ended by a decision, without a record vote, to continue its hearings to receive the cases of the Irish, Greek, Egyptian, Lithuanian, Ukrainian, Estonian and Lettish races.

In every Democratic quarter including the White House, it was indicated that the compromise proposal as presented Wednesday in a resolution by Senator Pittman, of Nev., a Democrat of the committee, was not specifically sponsored by the president, although it followed generally his suggestion to the committee Tuesday regarding reservations.

JAPAN GRABBING TRADE

Chinese Woman, Discussing Shantung
Incident, Declares Japan Has
Not Grown Up

Oakland, Cal., Aug. 22.—The first Chinese feminist leader and pioneer woman physician of the Celestial race, in discussing the Shantung affair and other Japanese inroads into China, uses language that appeals to women.

"Japan is like a spoiled boy," says Dr. Ya-mei Kin, Vassar graduate and special emissary of the United States Department of Agriculture. Dr. Kin has recently come from China en route to Washington, where she will render a special report on the growth of the soy bean.

"The whole world has been patting Japan on the back so long," she continues, "that Japan has become arrogant and spoiled, like a child that has had everything its own way and has undue share of petting and praise from grownups."

Japan, like other children, suddenly is made aware of its place in the world in relation to others. The new restraining influences are impressing her as irksome and tiring. She is restless under the sudden knowledge that other nations are watching her and expecting her to live up to the laws of the group, instead of being, like all young children, selfish and aloof from others.

"Japan is feeling for the first time what it means to rest under the burden of world disapproval. She is learning what are the effects when a nation does things not admired by civilization."

"Japan must be taught, just as Germany was taught, that imperialistic dreams are a thing to be put aside forever. She has yet to learn that military power, the power to fight, must be used only to sustain truth and justice."

"A social revolution in Japan is far from an impossibility. There are strong signs of revolution there today. If it comes it will save the outside world the trouble of disciplining Japanese Government as it had to discipline the German. It will mean that Japan has grown up of her own impulse."

Dr. Ya-mei Kin declares that China today is showing far greater capacity than Japan for broadening and growing along educational lines. At present, she says, China is actually in the lead, in following the paths laid out by the Western nations.

TROOPS KILL 4 MEXICAN BANDITS

Withdrawal Of U. S. Ex- pedition in Mexico Requested

NOTE IS PRESENTED

Arbitration May Be Invoked if Relations Between the Two Countries
Become Grave.

Marfa, Texas, Aug. 22.—Four Mexican bandits were killed by American troops in Mexico Wednesday, Capt. Leonard Matlack, who arrived here by airplane last night reported. They were surrounded in an adobe blockhouse that the Mexicans had constructed in a mountain pass.

The bandits fought desperately when they found they were trapped and two escaped. When the American troops approached the blockhouse with the intention of searching it the Mexicans opened fire from port holes.

The American punitive expedition continued yesterday combing mountain passes and canyons in search of the Mexican bandits who held two American army aviators for ransom, but only meagre reports as to progress had been received here last night. The forward dash which started three days ago was not shaken by protests against the presence of American troops on Mexican soil.

Immediate withdrawal of the American troops now on the trail of bandits in Northern Mexico was asked by Renillas, who called at the State Department to present a formal protest from the Carranza Government. The text of the protest was not made public and officials would not discuss it further than to say that no reply had been made.

At the War Department it was said that no additional reports on the operations of the American forces had been received from Major-General Dickman commanding the Southern Department. The troops now are well into Mexico and army officers hope that before returning they will clean out bandits from the stretch of territory 20 miles south of the border where they are operating.

ATHLETIC FIELD FOR A. H. SCHOOL

Work Soon To Be Start By Engineer Dunn It Is Reported

APPROPRIATION SOON

Athletes of High School Anxious For
Proposed Improvements—Field Now
in Bad Shape.

It is reported that the work of grading and improving the Alexandria High School grounds will commence at an early date.

The work will be under the supervision of City Engineer E. C. Dunn, and his staff, which is a guarantee that the jobs and lasses who attend the school will have an athletic field, tennis and basketball court, and up-to-date gridiron for football games, and a base ball field that will be the equal of any not superior to any High School in the State of Virginia.

The City Council is expected in the very near future to make an appropriation for these improvements, as the grounds are now in bad shape. The several mosquito breeding pools near the school are a menace to the health of the pupils and citizens residing nearby.

The young athletes of the Alexandria High School are above the average who engage in athletic contests, but they have been greatly handicapped for want of suitable training grounds and, no doubt, they have lost many games on that account.

Capt. W. H. Sweeney has always had the welfare of his boys and girls at heart and has supported every move that would benefit them in an athletic and social way, and after the improvements are completed on the field, it is his intention to encourage them to win honors in the brawn and muscle events indulged in by school teams during the school terms.

BURGLAR ROBS IN DAYTIME

Six Robberies Committed During Past Week by Colored Man

GIVEN A SURPRISE

Makes a Specialty of Clothing—All
Houses Robbed Are Occupied by
Colored Persons.

Wanted—Colored burglar who robs houses in the daytime. Call at police headquarters and give yourself up.

The police feel that an advertisement reading something like the above is needed just now in order to bring a suave colored burglar to justice.

This burglar during the past week has robbed at least half a dozen houses in various parts of the city. All of the houses he entered have been the residences of colored persons according to the police.

In each instance the burglar carried away articles of clothing. At a few houses he obtained a small amount of money.

This elusive burglar was captured a few days ago while near the Southern Railway roundhouse by a colored man who happened to be home. The burglar was taken back for a moment and then explained to the occupant that he had gotten into the wrong house and also told the man his name was Smith. Anyhow the occupant of the house realizing that the intruder was a sort of Jack Dempsey let him go his way unmolested and later made a report of the affair to the police. The news that there is a burglar abroad has caused colored residents considerable apprehension and those who have learned about his regular visits to houses are looking up their places with more care than they formerly did before leaving home.

SENATOR HIT BY STREET CAR

Fletcher of Florida, Near Death When
Struck at Thomas Circle

Senator Fletcher of Florida, was knocked down and severely injured by a Capital Traction street car about 7 o'clock last evening, while attempting to cross the southbound track at Thomas Circle, Washington. He was picked up unconscious and bleeding from a deep wound of the forehead and placed in the automobile of Dr. Herbert E. Marlyn, who conveyed the Senator to his home, 1455 Massachusetts avenue.

The cut on the forehead required five stitches and there were bruises on the right hand forearm and shoulder. The injury to the head almost resulted in a fracture, the physician said. Senator Fletcher also suffered from shock. That the accident was not a fatality was remarkable, according to witnesses.

The Senator soon recovered consciousness and was able to describe how the accident occurred and to draw a pencil diagram showing the position of the street cars when he was struck.

ANTI-HOARDING BILL

Washington, Aug. 22.—Amendments to the food control act imposing a \$5000 fine and imprisonment of two years for profiteering were ordered favorably reported yesterday by the House Agricultural Committee.

The legislation was proposed by Attorney General Palmer and extends the terms of the act to include among the list of necessities "wearing apparel, containers of food, feed or fertilizers, fuel oil and natural gas."

The amendment granting price-fixing power to President Wilson was eliminated upon the suggestion of the Attorney General.

CUMMINGS IS ACCUSED

Warrant Issued Charging Negro
With Peters' Murder

George Cummings, the negro held in Washington for investigation in connection with the murder of Geo. Peters, a farmer of near Jericho Park, and the shooting of his daughter, Miss Catherine Peters, was charged with Peters' murder yesterday in a warrant issued by Justice of the Peace Herbert J. Moffat, of Hyattsville, at the instance of Deputy Sheriff Thomas V. Garrison, of Prince George's county.

Two other warrants also were issued. They charge Cummings with assault with intent to kill Catherine Peters and with feloniously assaulting her. The Deputy Sheriff also secured a warrant from Justice Moffat charging Martha Cummings, alias Martha Hawkins, with being an accessory.

Cummings confessed yesterday morning to Detective Lieutenant Buntingham, of the Washington Central Office, that he was an escaped convict and that he was wanted in Georgia to serve a sentence of 20 years in the Federal penitentiary at Atlanta. The Washington police believe Cummings confessed being a fugitive in order to be sent to Atlanta instead of being extradited to Maryland to face the charges he felt would be brought against him by the Prince George's authorities. They think he would rather serve 20 years than be brought to Maryland.

Deputy Sheriff Garrison said a move would be made within the next day or two to secure extradition while the Washington police are making an effort to test the truth of Cummings' story regarding his alleged escape from jail in Georgia.

Cummings, after being identified Wednesday by two residents of Prince George's county as the man they saw Sunday in the Bowie-Jericho Park section a few hours before the crimes were committed, was grilled Wednesday night by Headquarters Detective Scrivener, who, with Detectives Kelly and Springman, arrested Cummings in Washington. Tuesday morning. The negro maintained his composure and insisted that he was the victim of a conspiracy against him. He denied emphatically that he was near the Peters farm Sunday and said both men who identified him and all others who have testified against him have lied.

ALEXANDRIA-BUILT SHIPS

But few people, and they mostly residents of south Lee street, witnessed the departure yesterday evening of the steel steamships Gunston Hall and Betsy Bell recently constructed at this place. Many people witnessed the launching of these marine monsters, but their departure for old ocean did not appeal to the masses as it should.

The Gunston Hall will load coal at Baltimore for Rotterdam, and the Betsy Bell will make a voyage from Boston to Liverpool. The first-named has been turned over by the Shipping Board to the Barber to the Barber Steamship Company; the latter to the American line.

In 1897 we stood upon the banks of the Mersey at Liverpool one Saturday evening (steamer day) and saw numbers of ships arrive at and depart from that seaport. Most of the flags displayed were British. The Stars and Stripes appeared on the taffrail of but one steamship, the Indiana, of the American Line. But few American flags were upon the ocean at that time. It is not so now. Tourist today will not find his country's colors as scarce as mermaids when he visits the docks of other nations. Not only will they behold the Stars and Stripes, but Alexandrians are likely to see "of Alexandria," painted upon the sterns of modern steel ships.

Another ship, fac-simile of the four which have already been launched, two of which are now in service, will be consigned to her elements some time in the next five or six weeks, while work upon three others is being pushed rapidly. When these shall be completed, two thirds of the vessels which are to be built under the present contract with the Shipping Board will be in the water. Four others will follow, after which contracts will be entered into for the construction of others for different companies.

The Gunston Hall and Betsy Bell may visit their home port occasionally while in the carrying trade. Steamships equally as large have at times carried asphalt to Washington, while others have often brought phosphate rock from Florida to Alexandria. We may see them again.

WHY STAND YE ALL THE DAY IDLE?

Notwithstanding the demand for labor everywhere, many persons white and colored, spend most of their time in idleness. High wages or short hours are no inducements to such specimens of humanity.

Alexandria has its quota, and occasionally the police arraign certain knights of indolence before Police Court. A young and able-bodied negro was ushered in this morning by a policeman on the charge of vagrancy. It was alleged that the accused works about one day in seven and spends the remainder of his time attired in workman's overalls, posing as a laborer. It was further stated that the fertilizer works are generally operated short-handed, and that the negro who was at the bar could obtain steady employment at this plant all the year round. The derelict was sent to jail for ninety days. He is liable to labor on the public roads without compensation.

There are others in Alexandria who may be forced to give an account of themselves at any time. The delinquents are not all negroes; some are white men who manage to exist without work.

SHORTAGE OF FISH

For the first time in many years no fish were displayed in market this morning. Friday has ever been known as fish day in market and many persons who purchase specimens of the finny tribe were disappointed to find the stalls bare today.

This essential keeps pace with other articles needed in our households. Fish which a few years ago retailed at ten cents a pound now bring twenty-five cents wholesale.

CARNEGIE LOST THE RACE

"It seems, after all, that Mr. Carnegie failed in his 'cater' ambition," says the Baltimore Sun. "He raced against time in his old age to die poor. But he lost the race by from \$50,000,000 to \$150,000,000, according to the various statements printed yesterday. Although he succeeded in giving away far more than he left, a man with even \$50,000,000 can scarcely be regarded as a pauper. Mr. Carnegie's experience shows how unsuccessful man may be. It was stated recently that the epitaph which he had written for himself was this: 'Here lies a man who knew how to surround himself with men able than he.' This, in effect, would be the most self-laudatory of epitaphs; it amounts to the attribution to the possessor of a rare character of genius."

In view of his failure to realize his ambition to die poor, there should be added to this epitaph: "But he passed away disappointed because he did not know how to die poor and achieve the ambition of a Croesus who had voluntarily made himself a Lazarus." Alas, poor rich Carnegie!

BOLSHEVIST ADMIT REVERSES.

London, Aug. 22.—Anti-Bolshevik forces have occupied Kherson and Nikolaiev, in the Ukraine district, official reports from Moscow admitted yesterday.

The Bolsheviks announced they had retired behind the River Bug.

STRIKERS ATTACK CARS

Attempt to Use "Scabs" is Abandoned.

Nashville, Tenn., Aug. 22.—Street cars were suspended here today as a result of the strike of conductors and motormen of the Nashville Railway and Light Company, which began last night at 8 o'clock.

The company attempted late yesterday to operate a few cars with men union employees, but the cars were attacked by union sympathizers and the effort was quickly abandoned.

The strikers demanded reinstatement of all employees discharged for joining the union, return of union men to their old runs and recognition of the right of the men to organize.

SUGAR GOUGERS

Licenses of Retailers Charging Over 11 Cents Will Be Revoked

The government's drive against the high cost of living gained through important developments in both houses of Congress and in the Department of Justice. The developments were:

Attorney General Palmer announced steps to reach sugar profiteers who sell sugar for more than 11 cents per pound. Telegrams were sent to all United States attorneys, food administrators and bureau of investigation agents to report sugar profiteers. Their licenses will be revoked, according to Edgar Rickard, of the Food Administration.

Come and Have A Good Time With Us

To Our Patrons

Alexandria, Va., June 2, 1919.
In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.

MYSTERIES SOLVED

Long Series of Disappearances Followed by Discovery of Human Bones

Maple Hill, Kans., Aug. 22.—Kansas has unearthed a "murder farm."

Three skeletons have been dug up and searchers with spades and shovels are seeking more.

Rufus King, former keeper of a Every stable here, is formally charged with three murders. He was arrested in Colorado and has been brought back here for trial.

And Wabaunsee County officials think they have solved the 11-year mystery of this "Port of Missing Men."

Until the first skeleton was found the mystery had been impenetrable with never a clue that indicated a solution. Four men disappeared in this little cattle town at different periods. They left not the slightest trace behind them.

NEGRO LYNCHED

Henderson, N. C., Aug. 22.—Walter Elliott, negro, was lynched Wednesday night by a Franklin county mob, ten miles east of Youngsville, after he is reported to have confessed to making an attack on the wife of a prominent farmer Tuesday night, according to a telephone message received here yesterday.

Section 117. The general assembly, for the purpose of this article, may classify cities and towns in relation thereto, except in the manner provided in article four of this Constitution, and then, by a recorded vote of two-thirds of the members elected to each house, and except also in the case of cities having more than fifty thousand inhabitants, as hereinafter provided. The general assembly, for the purpose of this article, may classify cities according to their population, but the maximum population prescribed for any class shall exceed the minimum population for the same class by at least ten thousand. The general assembly, at the request made in manner which may be prescribed by law, of any city having a population of over fifty thousand inhabitants, may grant a special form of government for such city, and any law or charter enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurer and city sergeants.

And insert in lieu thereof the following:

SHIP STRIKERS TO GO BACK

Those at Sparrows Point Probably Will Return Today

Eight thousand strikers at the Bethlehem Shipbuilding Corporation's plant, Sparrows Point, Baltimore, probably will return to work today.

The strikers' representative states that the men had been advised to return to work as a unit, as this was the best way in which their interests could be served. He explained that he felt the most good could be obtained by treating the company on a "50-50 basis."

About 300 fitters and loftsmen went on strike yesterday morning. At the same time a few other men who could not be used to good advantage about the plant were laid off, according to company officials.

POLAND CALLS OFF PARLEY

Berlin, Aug. 22.—Polish delegates in Berlin for discussion of the treaty between Germany and Poland broke off negotiations today, because of the recent developments in upper Silesia.

The German government has decided to form a special committee for consideration of the question. The Poles denied today that regular Polish troops had participated in the Silesian fighting.

Word has been resumed in six of the coal mines in the Kattowitz district, indicating a collapse of the strike, the Berlin government announced today.

Government troops are said to have mastered the situation.
